## USBC Elects Constantino Marchione to the Hall of Fame

by Ed Abakumoff

USBC Hall of Fame committee elected Constantino (Connie) Marchione, well known deaf bowling writer, to the United States Bowling Congress Hall of Fame. The committee met this past Monday.

The next day after I had gotten home from bowling in my Tuesday morning league, I began to watch the PBA bowling that I had recorded. A short time later my phone rang. The person on the other end asked, "Is this Ed?" and I said "yes." He then told me that he was Jerry Schneider of USBC communications and that he needed some assistance and for me to keep a secret. I replied "Sure, what's up?" Jerry proceeded to tell me that Connie had been elected to the USBC Hall of Fame yesterday by the Hall of Fame Committee. I was elated and interrupted and said "WOW, that is fantastic, Connie will be overjoyed to hear this." He also said that Mike Carroll, USBC President, wants to officially tell him personally.

Jerry told me that he needed to know what would be the best way to notify him? He suggested email and I told he can call via telephone relay service. I explained to him what it was and how it worked. I asked Donna, my wife, for the relay phone number since I couldn't remember it. I gave Jerry the number and he told me that Connie will get the call that afternoon or the next day. I asked him about the induction ceremony and was told that it will be in March of next year in Nashville, Tennessee.

Before hanging up I said "I will see Connie this Sunday and I will keep my mouth zipped 'til then."

Connie Marchione is being inducted into the USBC Hall of Fame for his Meritorious Service to the sport of Bowling. He has been involved in bowling in many different ways for over 60 years. His specialty has been Deaf bowling. He has been a bowling writer for about the same amount of time. He was one of the pioneers in the formation of the National Deaf Bowling Association and the Pacific Coast Deaf Bowling Association. He has served as an officer in both organizations and is a member of their Hall of Fame. He initiated the masters tournament in both previously mentioned associations following the

## Reyes Takes Motor City Classic

TAYLOR, MI-Tony Reyes' first career Denny's Professional Bowlers Association Tour title couldn't have been any sweeter. Reyes made history by firing the 17th televised 300 game in the 47-year history of the Tour in the semifinals Sunday at Taylor Lanes, then defeated Wes Malott, 255-238, for his first career title.

The 33-year-old from San Bruno, Calif., knocked off PBA Hall of Famer Parker Bohn III, 300-215, in the semifinals, becoming the first bowler since Mika Koivuniemi in the Cambridge Credit Classic in Windsor Locks, Conn., on Dec. 17, 2003, to be perfect on TV.

Reyes also became the third bowler — and the first since C.K. Moore in 1996 - to shoot 300 on his way to his first career title. Moore's 300 game also came against Bohn.

After firing the 300 game, Reyes refused to knock off the top-seeded Malott, clinching the win with a strike on his first ball in the 10th frame.

"I did have some shaky legs trying to finish a 300 game for the first time since I can remember," said Reyes, who earned \$25,000 and an exemption for 2007-08. "I had to bring it back though after that shot. Business is business and Wes is a great bowler so I knew I had to shoot one more big game."

Reyes had a difficult 2005-06 season which included the passing of his father midway through the season. He finished just 51st in the 2005-06 PBA World Point Rankings, but earned his exemption for 2006-07 by winning a special event, "The Final Frame presented by the Denny's PBA Tour."

"I did it for dad. He was here Friday and he's here now. I can just feel it," Reyes said. "I've worked so hard over my eight years on Tour and to get to this point is amazing. I felt like it was just a matter of time."

Reyes came into the stepladder finals as the second seed and took on Bohn after he defeated fourth-seed Mike Edwards, 252-203, to advance to the semifinal. After a 3-7 split and an open in the fourth frame, Bohn rebounded with seven consecutive strikes to clinch the win.

Edwards defeated Mike Scroggins, 244-222, in the first stepladder match.

Malott took home \$13,000 for second, Bohn earned \$6,500 for third, while Edwards and

## Patterson, Asbaty Ready To Roll At World Cup

CARACAS, Venezuela—As competitors walked in for the opening ceremonies of the 42nd QubicaAMF World Cup on Saturday, employees were still feverishly working to complete a massive modernization of the Centro Nacional de Bowling Mampote.

The start of the World Cup, one of the top international events that has attracted 94 countries, was even pushed back by a day so the installation of 40 new lanes, pinsetters and scoring units could be completed.

With the finishing touches finally done, the players took to the lanes Sunday for the official practice sessions.

"It's nice to throw some shots and get a feel for the lanes," said Team USA's Dan Patterson of Buffalo, N.Y. "I've got a good look, and I'm more than ready for this event to get going."

The final decision to hold the World Cup in Caracas as planned was finally made a little over a month ago when organizers were assured the venue would be completed.

With a tight schedule, there was no time for the lanes to be tested in advance, so when the women started their official practice Sunday morning, they were the first to throw shots on many of the lanes.

"I can say that I was the first one to ever throw a shot on lane 35 of this bowling center," joked Team USA's Diandra Asbaty of Chicago. "This is the first time I've ever bowled on a brand new installation, so it will be interesting to see how things go this week."

The World Cup begins with all competitors bowling eight games of qualifying on Monday, Tuesday and Wednesday before the field is cut to the top 24 men and top 24 women.

After eight additional games Thursday, the field is narrowed to the top eight in each division for round-robin match play. The top three men and top three women advance to Friday's television finals.

Asbaty will look to continue a wave of success for the United States at the World Cup. Lynda Barnes won the event last year, while Shannon Pluhowsky took the title in 2002 and 2004. Patterson will try to become the first U.S. champion since Patrick Healey Jr. won in 1995.

## Another “Shack Attack” At Inland Empire NABI

by Quinn  
MORENO VALLEY—Inland Empire NABI's tournament this past Saturday was hosted by ABC Moreno Valley Bowl. Our new champion, Jay Shackelford, has done it again, for yet another NABI championship title.

Jay, already in the Tournament of Champions for July 2007 in Las Vegas, won \$800 with the optional upgrades. He also won another champion's shirt to add to his collection.

It was a fun time to watch the bowlers's climb the stepladder. Our stepladder began with Patrick Ambrose who bowled a 189 to Jeff Swanson's 263. Jeff then bowled Mike Pizarro. Jeff bowled a 161 to Mike's 195. Mike bowled a great 188; however, Jay came in to bowl a 191.

Our title match with Jay Shackelford and our top qualifier, John Hafer, was a close match to the very end. John bowled a 171 to Jay's 174. Congratulations to them both!

John Hafer just began bowling tournaments, started out with a bang. What a wonderful competitor!

*INLAND EMPIRE NABI Tournament at AMF Moreno Valley Bowl, November 4, 2006. Left to right, John Hafer, 2nd place, Terri Colunga, NABI director, and champion Jay Shackelford.*

Jay Shackelford, whose happy attitude is contagious, is always a terrific competitor. Jay wants to dedicate this win to his sweet granddaughters, Torri and Courtney, and his beautiful wife Barbara. He also wants to thank Jack at Riverside Lanes Pro Shop for drilling his Columbia Action which he used to win this tournament.

We cannot leave out another great competitor, Kerry Lucka who came in 6th. Thanks to all who came out to bowl our club.

Our next tournament will be held at Riverside Lanes, Saturday, November 11. See our ad in this issue of the Bowling News.

# Columbia Corner

by Gary Kelley

"My ball isn't finishing any more". "My ball is dead in the water". "My reactive ball has lost all it's hook". How many times have you or your teammates made these statements. It's a common theme that is going around bowling centers these days, but one that can be cured.

Today's reactive and particle balls are very porous and thus absorb a lot of oil and dirt from the lanes. The reason a new reactive or particle ball rolls so well is that the shell is fresh and it can absorb oil into the cover. This absorption gets the oil off the outside of the cover and allows the fresh shell to grip the lane. If today's performance balls weren't absorbent, the oil would stay on the outside cover of the ball and the ball would skid much farther down the lane before reacting.

When your ball starts losing reaction it's because the pores in the shell are full of oil and dirt as well as broken down plasticizer. Plasticizer is the material shells are made of, and when this plasticizer starts to break down inside the ball, it migrates toward the cover filling the pores from the inside out. The combination of this plasticizer filling the pores along with the oil and dirt the ball has picked up over games of use, causes your ball to "die" and lose hook.

Proper maintenance of your ball is imperative today in order to maximize your scoring ability. Columbia has invented a product known as CPR (Coverstock Performance Resuscitation) that will restore hook to reactive and particle balls. CPR is a patented synthetic polymer (powder) suspended in a water base. This powder acts like little sponges that absorb oil, dirt and plasticizer out of the pores of your ball.

This product is extremely easy to use. It comes packaged in a 2 oz. plastic bottle with a plastic bag and a plastic tie. You first dampen the surface of your ball, then put it into the plastic bag. You then tie the bag closed and do a little "Shake a Bake" routine, which distributes the powder around the surface of the ball. Set the ball aside for a little over an hour, and it's done. The powder has successfully absorbed the built up oil, dirt and plasticizer from the shell, restoring it to its original condition.

ing the ball to it's "like new" reaction.

How often should you do this ? As soon as you start to see your ball lose reaction, or after approximately 50 to 60 games of bowling. Some balls will hold up longer than others before they need a treatment, but believe me it will happen eventually to all reactive and particle balls. I believe you should do this process at least twice a year, and once combine it with a resurface to fully restore the shell to box finish.

Using the proper polish on your ball is also a very important part of maintaining a high scoring level of play. Bowling ball polishes are actually liquid sandpaper, and each has a different effect on your balls appearance and its gripping characteristics. At Columbia we make Degree Ball Polish, a polish that comes in four different grits. You can purchase this polish in either 320, 600, 1200 or 2000 grit.

The 320 grit polish is designed for oily lanes. It will leave your ball with a dull, rough finish that will increase the balls traction in oil. This polish can be used on particle, reactive and urethane balls.

The 600 grit polish is designed for medium to oily lanes. This polish will give your ball a slight glaze, toward the duller side, and help the ball grip better on medium, oily lanes without rolling too early. This polish can be used on reactive, particle, urethane and polyester balls.

The 1200 grit polish is for medium to dry conditions. This polish will give your ball a high luster finish, create a more skid snap ball reaction and increase the back end finish. This polish can be used on reactive, particle, urethane and polyester balls.

The 2000 grit polish is primarily to be used on your ball for dry conditions. This polish will create a high luster on the ball along with a slightly slippery surface feel. This works well on dry conditions as well as for bowlers with slower ball speeds.

Remember, you can alter the surface of any ball to give you a ball reaction that will be better suited for a lane condition that gives you trouble.

The days of going to the lanes, bowling your three games, putting the ball back in the bag,

and going home are over. You must properly maintain the surface of your ball to keep your scoring at a high level.

Gary Kelley has been a pro shop operator for 36 years, written articles for bowling publications as well as *Bowlers Journal* and currently works for Columbia Industries.

# BOWL TONIGHT!

NORWALK — Betty Phillips returned to bowling last week, after several weeks of medical absence and made the honor roll. This week she topped it at Keystone Lanes with 211/597, followed by Doris Lewis 222/571 and Lucy Turner 545.

Also, Rochelle Sanford and Ada Burri tied on 536, Cathy Phylow 528, Karen Mauricio 208/506, Margo McClain 503, Dorothy Scott 223, Cyndie Martin 213 and Joan Lumpford 201.

Cal Bowl #5 and Cerritos #2 are tied for league leadership with 22 wins, Westminster #2 has 21, Westminster #1, Del Rio #2 and Del Rio #1 tie at 20 wins, Cal Bowl #4, 19, and the next three teams are tied at 18 wins.

We regret to report that Daisy McReynolds will be sidelined for more surgery and Kathy Parrish will be filling in for her. Also, Katrina Whitmore will be replaced by Jeani Russ and we will miss them both.

Our Halloween notes were not included last week so we will add them here. Jan Jones was a beautiful Geisha girl, Cathy Wyatt was a space alien, Lucinda Clayborn was Madonna, Tracy Baldwin was a bright red devil and Ann Fedderly was half angel and half devil.

Four Queens has confirmed the league sweepstakes dates in Las Vegas on April 15-16-17 and we thank Mike for being so helpful. Rates are a little higher this year but the rooms will reflect the reason why. The new face lift is great and hopefully we will all be in the South Tower this year.

NEXT WEEK: 10:00 a.m.  
November 13 at Del Rio Lanes.

## Rose Wins 2nd ABTA Title at Chaparral

*Match Game is \$3,500 This Week • Velinda Hit Match Series \$468/3-6-9 is \$900*  
*Bowling Square Is Our Host In One Day Early Event*  
*Qualify 12:00-1:00-2:30- 4:00 & 6:00PM, SemiFinals 7:45PM*  
*Bring In A New Member This Week & Bowl For Half Price*

SAN DIMAS — Bret Rose, One of the Good Guys, and a long time ABTA member was really on his game and won our latest event at Super Chaparral Lanes downing upstart Richard Aquino in the title game to take home a nice \$2,300 top prize for his stellar effort.

In our Early Event we had a nice turnout of 172 entrants in the four squad event. It took a nice +53 (men), and +33 (ladies) to make the cut to the semis. Also added were Super Seniors, Simon Rojas, Vince Russell, and Bobbie Nakunz to the board.

Leading the Semis was the pride of West Covina, the Big Portsider Bret Rose with a nice +124. He would sit out and bowl the title game. Behind him was ABTA veteran Benny Hurtado at +98 who would receive a first round bye in the single elims and enter in round two. It took a +29 (men) and -31 (oh my!!) for the 3 guaranteed ladies to make the sweet sixteen single elim roll offs.

The bowlers took to the lanes. In the first round single elims losing were Jim Meloon, Marc Anthony, Brian Clarmont, Roy Castillo, Greg Kokanour, Rich Yanagita and Ryan Grega. They got checks of \$100 in 10-16th places.

In round two being eliminated were Janice Meloon, Anita Smith, Ben Hurtado and Kevin Weigert. They cashed in 6-9th places and \$105 each.

Round three had Walter White down Dodie Sajonas 185-139. Rich Aquino got to John Gonzales in a good one 223-212. Diodie and John were 4th and 5th with fine bowling and \$110 each with Richard and Walter to meet for the right to bowl Rose for the title. In this game Richard got out his strike ball to eliminate a tapped White by a 238-183 count. Walter was 3rd with Richard off to the title game vs Bret Rose!

The title game was set and the horses were paid! Aquino paid \$54 for everyone who had him at the \$5.00 fun bets. We would see who would become the latest Champion. Bret Jeremy to have Richard lead off and he did nervously with a split and 5 out. He then doubled but he had a problem here as Mr. Rose spared and strung a big six bagger to take command. Richard opened in frames 4 & 6. Bret coasted to the win 237/241 to Richard at 158/196. A great performance by a fine bowler, and a title well-deserved! Just Super!

Great bowling also by Richard Aquino who could have won it all! He has some experience now! Walter White in 3rd bowled super also.

Tourney Hi Qualifiers were Jason Garcia +185 for the men and Tess Cruz led the ladies at +85. They will get paid entries.

Pat Danforth eliminated the field in the 3-6-9 roll off and got

the first four 9's or better. Needing only one more for \$800, missed right a bit leaving the 2-10. So we will go for \$900 this week at Chaparral. He got got a \$50 consolation for beer, and Stoli money:-).

The Match Game was UN Matched at 262 drawn by Bret Rose and with the carryover of \$2,495 we will have a \$3,500 Match Game at Bowling Square Saturday.

Match Series worth \$458 was Matched at a 549 drawn by Tess Cruz. Velinda Kelly was the lucky bowler taking home a tidy \$458. So we will estimate the Series at \$200 this week .

The weekly winner of the Columbia "300" Ball, was Big Don Johnson Sr. who happily opts for the popular Radar Lock Ball. He is most deserving, and thanks the ABTA, and sponsor Columbia 300 for the fine ball.

Champion Bret Rose is one of our fine members for many years and not only a fine bowler but a fine person and friend! He hails from West Covina and used a Zone drilled by Harry Wong at Friendly Hills. He is single ladies. Bret thanks the ABTA and Chaparral for hosting the event, and his team mate Eugene Haynes for staying and rooting him on. Bret is an ABTA Blue Blood as he also bowls our Great ABTA League Thursdays at Cal Bowl. This is his second title.

Richard Aquino hails from

Walter White, another long time member hails from Riverside, and used a Columbia White Dot drilled by Frank Bellinder. He thanks wife Kay for letting him out to bowl and the ABTA and Chaparral for a nice event. We had several new members at Chaparral. First time cashers were Johnny Tran, Danielle Rodriguez, and David Haskell who returned to ABTA Action. We hope to return there soon.

"Spider Man" aka Claude Dottin won the Las Vegas Room Drawing for our Las Vegas Open Jan. 11-12-13-14 at the Orleans. A new raffle will started Saturday. Win yours for only \$1.00. Reserve your rooms soon!

It is history folks, as Bret Rose enters the archives as a two time Champion!

Make plans for our One Day event at Bowling Square Saturday. There will be qualifying at 12:00-1:00-2:30-4:00 & 6:00 PM with SemiFinals 7:45PM. One in five making the cut! There is a \$3,500 Match Game awaiting You there!!

The following Saturday we are hosted in a One Day Event by the Bowlium in Montclair. The handicap is frozen in that one for our Big Thanksgiving Event Nov 23-24-25 at Covina Bowl. \$6,100 First Place in that one.

See You all at Bowling Square for a good one! Until then! The new schedule was mailed, if you didn't receive one, let us know and we will send you one. Bring a new member in and bowl for 1/2 price!

Instruction to Help Raise Your Scores

What is Your BIQ?

(Bowling Improvement Quotient)?

Conclusion More on the Importance of Advanced Fundamentals

Checking over last month’s article, you may wonder why it is that certain advanced techniques can be called fundamentals. After all, fundamentals are usually categorized as basics, aren’t they?

Well, think about it for a minute; advanced bowling techniques come in two main categories...those, which absolutely *must* be done in order for success to be possible...and those about which there is a choice. It is those *must be done* ones, which come under the heading of advanced fundamentals.

In other words, your particular *style* is your own...and styles often differ greatly from bowler to bowler. This is why the best coaches usually have a policy of never changing a bowler’s style, but rather improving that bowler’s game *within the style the bowler already has!* And even if you are a low average bowler, you still have your own style.

This is also why, when watching the PBA finals on TV, you’ll often see even the world’s top bowlers scoring within a few pins of each other, while looking very different from each other during play.

So here are some more of these items, added to the ones from last month’s article.

**Matching Ball Speed and Revs**

This is a subject, which few bowlers pay enough attention to, or even know about, including even some professionals...but it is a must.

Why? Well, the answer becomes obvious when the winning (or losing) records of certain professionals are considered.

Here are just a couple of examples. One excellent (now former) PBA pro is Kelly Coffman. An outstanding bowler in many ways, and highly intelligent, Coffman, who did some cashing on tour and made the TV show several times, *never won a tournament.* In the opinion of some top coaches, the reason for this was because he consistently put too many revs on his ball for his ball speed. In other words, revs and speed *did not match!*

“How can this be?” you may ask.

The answer is simple. As many of you may know, the rev rates of professionals are recorded in r.p.m.s (revolutions per minute). The average PBA touring pro is in a range somewhere between 425 and 475 r.p.m.s. Their ball speeds are somewhere in the range of 18 to 21 miles per hour, which breaks down to somewhere between approximately 15 to 21 revs from release to impact.

It turns out that Kelly Coffman generated more revs than anyone else on tour at the time...about 600 rpms...while his ball speed, somewhere in the normal range, was too slow for that high revving ball. *So his revs and ball speed didn’t match.* That, according to some experts, made it difficult for him to control the ball’s hook. So his ball generated too many revs to keep it from over-hooking.

Coffman, a highly intelligent man, went on to design bowling balls for a major manu-

facturer. Therefore, it certainly wasn’t stupidity that caused the problem. Since I never met Mr. Coffman, I can merely state what has been reported, but that’s the story as I’ve heard it.

**A Greater Success Story**

The highly successful PBA champion, Robert Smith, on the other hand, often generates even more revs than Coffman...over 650 r.p.m.s on many of his shots, according to reports.

So how can Smith win, when Coffman couldn’t? Simple...Smith is capable of throwing the ball faster than any pro on tour...often in the range of 27 plus m.p.h. on many shots...which simply means that Smith is successfully matching ball speed to revs, thus generating acceptable ball control on the lanes. (I’ve timed Smith at nearly 30 mph, but that was on a straight spare shot.)

Smith formerly controlled his rev rate by having often used what is called a Sarge Easter drilled ball. This is a ball the great bowler of the past, Sarge Easter, often used...drilled fingertip for the middle finger, but conventional for the ring finger. Since the ring finger is normally considered to be the revving finger, this slows the rev rate when needed. If you watch recordings of some of Smith’s past tournaments carefully, you’ll notice he used this type of ball much of the time.

Last year however, I noticed that Smith has “softened” his hand somewhat during the release. When I mentioned this to him during a tournament, he acknowledged that this is helping him control his revs more effectively, thus allowing him to go back to a normal fingertip ball. Smith has won some prestigious tournaments since then.

My friend Palmer Fallgren, a PBA champion of some years ago, as well as Team USA’s former head coach, was the tour’s statistician for some time. While I’m sure others were aware of the importance of rev/speed ball matching, Fallgren was the first to write about it in the pages of Bowling This Month magazine, a few years ago.

**Checking Your Own Rev Rate**

Buy some one inch wide white tape at the drug store. Put about a 4” strip of it on your ball at an angle just above the ring finger hole, as shown in the illustrations. Then throw your strike shot a few times and count the revs of the tape from release to pocket impact (or have a friend count them). *If your rev count is anywhere from around 13, 14 to about 19, you are matched. If it is less than 13, you need to add revs (see last month’s issue) or slow down your ball speed. If your rev count is 20 or more, you need to either increase ball speed or slow down the revs.*

Some Advanced Fundamentals

**1 – Eliminate Overturning the Ball**

This is probably the second most common problem bowlers have during the last part of the swing...the follow through!

It begins during the release, where over 90% of bowlers *turn the hand too early!* This, then, results in the *hand and forearm*

*overturning.* Result? *At the finish, the hand is in a “knuckles up” position and the arm has “chicken winged”!* That scenario creates several problems. 1) an overturned (spun) ball, 2) a weak ball, 3) a pulled shot and 4) inconsistency.

Had enough?

Here’s how to fix it: When starting your downswing, come down by *leading with the last two fingers of your hand, all the way to the release point!* This allows your hand to stay *behind* the ball long enough so it won’t turn too early. Remember, you want the ball to turn on the lane, not in your hand.

Then, as you release the ball, turn your hand only enough to bring the thumb up to 12 o’clock. Turning the thumb around any farther is the common trouble, which seems almost impossible to avoid for most bowlers.

But there’s an answer, and here it is: I call it “Hitch-Hiking”.

What you do, is this: *At the very end of your follow through motion, imagine you are trying to hitch a ride on the highway.* You know what I mean, *snap your thumb toward about one o’clock or so* (left handers toward about 11 o’clock, as if you were hitching a ride in England.)

This works, as long as you don’t do it too early during the swing. Remember...at the *end* of the follow through. Do it too early and you’ll kill the hook. It may take a bit of practice, but it works, because this way, if you do overturn your hand a bit, you can recover...and throw a much more powerful strike ball!

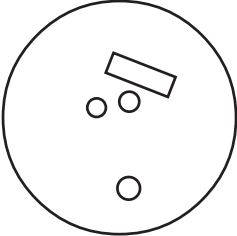

**2 - Pocket Spotting**

The art of watching the ball’s behavior at the pocket is of extreme importance. Watch to see at what *angle* the ball hits the pocket. Why? Because without enough “entry angle”, the ball over deflects off the head pin and a standing ten pin is the result (7 pin for left handers). So...watching the ball *at the pocket* is critical.

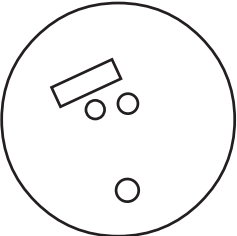

If you notice your ball hitting the pocket too flat, it may mean that you didn’t put enough hook action onto the ball during your release. Or, it may be you are throwing the ball too close to the middle of the lane, where there’s too much oil to allow the ball to hook (remember, oil is like ice...the ball won’t hook where the lane is slippery). So, since there’s less oil near the gutters, your answer might be to put you mark somewhere between the first and second arrows, where it is drier and the ball will hook more.

If you adjust your mark, you’ll also have to adjust your feet in the same direction somewhat. How much, you’ll have to figure out during the next shot or two, of course. Anyway, watching the ball at the pocket is the answer to discovering many problems, which are usually easy to fix, once you do it. Too many bowlers watch the pins, which is a beginner’s mistake.

So...watch the *ball, then the pocket!*

Better Bowlers Tournament No. 5

New Divisions

RIVERSIDE—Starting with Better Bowlers Tournament No. 5, we will have a Right-handed Division and a Left-handed Division. All prize money collected from Right-handers will be paid to Right-handers and all prize money collected from Left-handers will be paid to Left-handers. Instead of Guaranteeing \$1,000 for first place, we will now guarantee 1st place for Right-handers at \$750 and also guarantee 1st place for Left-handers at \$400. We will pay 1 place for every 4 entries in each division. In the first 4 Better Bowlers Tournaments we had 45 Right-handed entries and 16 Left-handed entries. If all of these 61 bowlers were to bowl in Better Bowlers Tournament No.5, this is what your prize money would look like:

45 Right-Handers	
1st Place .....	\$1,200
2nd Place .....	700
3rd Place .....	350
4th Place .....	350
5th Place .....	200
6th Place .....	200
7th Place .....	150
8th Place .....	150
9th Place .....	120
10th Place .....	110
11th Place .....	105
12th Place .....	100
16 Left-Handers	
1st Place .....	\$600
2nd Place .....	300
3rd Place .....	190
4th Place .....	190
PLUS	

After 5 games of qualifying, and the Right-handed and Left-handed winners are determined, there will be a two game roll-off for an additional \$200 from Luster-Cote, Inc. with the winner taking \$150 and the banner for that tournament. The loser would receive \$50. So with \$750 guaranteed for a Right-hander, a Right-hander could go home with \$900 or more, if he won the final 2 game match. Likewise, with \$400 guaranteed for a Left-hander, a Left-hander could go home with \$550 or more, if he won the 2 game match. The only restriction is that there must be at least 4 Left-handers entered into the tournament for the Left-handers to bowl in the final two game match, otherwise the \$200 would be distributed among the top Right-handed bowlers.

Again, this is a handicapped event for bowlers with averages from 190 to 230 plus, with the handicap being 50% of the difference between the bowlers average and 230, 20 pins maximum per game. Since we are paying one place for every four entries, there must be 8 entries for Left-handers for us to pay 2nd Place \$200. We do not allow PBA National champions to bowl in our tournaments. PBA Regional Champions must enter at 230 average, while PBA Non-Champions members must enter at 225.

Better Bowlers Tournament No.5 is scheduled for November 19, 2006 at Riverside Lanes, located at 10781 Indiana Avenue, in Riverside, just off the 91 Freeway, near the La Sierra exit.

National Deaf Bowling News

Dear Readers...

by Connie Marchione

You have read in this paper or seen it on bowl.com website that I was elected to the USBC Hall of Fame, an honor which I did not expect to be in, in my lifetime. I was shocked and elated when informed of this great honor by USBC President Michael Carroll. I did not know I was a candidate and want to thank all that are involved in getting my name nominated.

However there were great deaf leaders/bowlers unfortunately deceased the real pioneers of deaf bowling, Thomas Hinchey, Herman Cahen, James Ellerhorst and Cortland Greenwald who should be honored first. If it were not for them, I may not be writing this article. Till they get in, meantime I will share my Hall of Fame honor with them.

Ed Abakumoff was 2nd with 787 including a 236, followed by Francisco Navarro's 220-211/773 and Darrell Stogryn with 206-204/771. Gardy Rodgers closed with 222 for 764 and teammate Dan Flores who was hot with 191-277-269/737 in his other league last Thursday, struggled with a 709. In the league's Masters Rodgers beat Pablo Yoma's 202-202/756 in a close match. Andy Lorenzo's 203/715 and Don Millwee's 201 completes the roll.

Jones' S F Valley lost to Yoma's powerful South Bay trio but succeeded in ceding South Bay's lowest point winning 13 to 7. In previous 4 sessions South Bay had won 14 or more points. The loss dropped S F Valley to 4th place while Riverside with Lorenzo's 715, Abakumoff's 787 and Emad Aranki's 5 points best Stogryn's El Camino Village 16-4 to move up to 2nd place. Bottom dwelling Hollywood with Rodgers and Flores beat Navarro's Los Angeles 15 to 5 and moved up into 3rd place.

The league thanks AMF Cerritos management and staff for hosting and will travel to the high scoring Canoga Park Lanes on Nov. 19.

# Team 11 Takes Forest 615 Trios League Lead

by Frank Kietz  
LAKE FOREST — Team 11 composed of Mike Tucker, Randy Erickson and Pat Danforth, are the second segment leaders winning 16 of a possible 17 points creating an 8-point lead. Tucker's 279/730 paced the near sweep. Center Manager, Allan Mac Duffee, mentioned last Sunday's exciting PBA/ESPN-TV show featuring California's Tony Reyes' \$10,000 perfecto and \$25,000 PBA title defeating Parker Bohn III, 300-238 and then a 255 against top seed Lee Mallot's 228. Anyways, Allan said, our 615 Trios' roster contains a number of pros who currently carry deuces. Jeff Carr 240, Mike Belair 235 and Paul Danforth 232. He concluded, hanging around these bowlers helps my game, I know. Announcer Randy Peterson said, watching the TV show (and making a pro-am pitch), helps PBA fans improve their bowling. Allan suggested Orange County area bowlers watch Forest Lanes' 9:00 p.m. Thursday 615 Trios so they can get help. The 615 Trios \$5,000 title spurs lots of Thursday night high scoring. Last week Vista's John Sowell led the honor rollers with an 11-strike 279 game, a 811 series. In fact, there were four 279s; Jeff Garrison and Carr made the list. Yes, Carr has an 814 season high. It's possible Darrell Avery sparked Team 6 to a season high 773/2157 with a high 289 game and 749 series. Alan Meyerson and Mike Cacace helped with the record set. Kristi Zimmerman made the distaff honor roll with a 201/575. Kristi has a season high of 716 while Crystal Alvarez has a 267 high game. The match to watch tonight (Thursday, November 9) is between Teams 11 and 9 on lanes 35-36. Mac Duffee thinks the action match is between his Team 10 and 6 on lanes 29-30. He's getting help from Carr and Ashkan Tahvildaran. For more scratch league and sweeper info, call 949-770-0055.

# JAT Farm Club

by David Gordon  
**COVINA**—Bright and early at Brunswick Covina Lanes, found an outstanding turnout of Farm Club members and six new members. Thirty-seven bowlers came out with high expectations and overall were not disappointed. Although some may disagree, this was one of our higher scoring tournaments with the entire field averaging over 182. The turnout was also one of our best which then gave us a top 16 match play round and an increase in the scholarship payout. Thank you all and keep it coming.

Jumping out quickly to lead the tournament from start to finish was Deanna Carrillo. Deanna had qualifying highs of 266-225-225 to post the first five games at plus 112. More high qualifying games came in from Patrick Smith 262, Aaron Williams 256-233, Thomas Hogan 244, Eric Kilgore 236-221-243, Keyon Lemus 236, Jerome Jordan 234, Justin McCullin 234, Jon Hogan 233, Matt Wootton 232-226, DeeRonn Booker 232, Michael Flood 232, Amanda Manoly 225, Shayne Huntley 225, Justin Foster 224, Mark Curtis 223-223, Felicia Mara 223, James Bael 223, Michael Gaylor 222, Scott Englehart 221, and Eddie Sayles 220. The cut line to advance for another five games came in at minus 73.

In match play things calm down a little. However, Charlie Hair put up the tournament high game with a near perfect 278. Charlie also added a pair of 245 games to propel him from 15<sup>th</sup> spot into the top five and give him claim to the best match play jump. Other match play highs came in from Samuel Velasquez 269, Wootton 223-265-245, Carrillo 256-223, Booker 241, and Foster 237.

In the finals we started with the old man of the group, 5<sup>th</sup> seed Kilgore (+78) taking on 4<sup>th</sup> seed Booker (+158). This was a match that every Director enjoys, back and forth and close to the end. Final frames tallied, Kilgore 255-235. Now Kilgore had to meet 3<sup>rd</sup> seed Hair (+177) and here again Kilgore took the match 214-174. Now knowing his days to capture a title are limited, Kilgore now faced 2<sup>nd</sup> seed Wootton (+195) with the same intensity, putting away the rookie 210-189. However, against top seeded veteran

Carrillo (+298), in the best 2 of 3 matches, it looked like age finally kicked in. Carrillo went 212-165 in the first match and with her GJAS league members cheering her on, she then captured the second match 204-179 for her second Farm title. Congratulations Deanna, and Eric you have until the end of the season. Keep shooting like today and it'll come.

Our next tournament will be on November 19<sup>th</sup> at AMF Cerritos Lanes. Bowlers please remember that we are trying to start promptly at 8:00 am. Check-in for the Farm Club opens at 7:15 which gives you plenty of room to get there on time. I'd hate to close check-in without you. See you in a couple.

# SED Jr. Travel

by David Gordon  
**WEST COVINA** – Welcome once again to the SED Jr. Travel weekly update where you can keep track of some the most up and coming juniors bowlers in the local area. On behalf of our group I want to thank the staff and management of Brunswick West Covina Lanes for accommodating us on such short notice. We really appreciate it and our scoring thanks you too.

On this first day of Pepsi qualifying, Mark Curtis set his mark and presence on the league with an outstanding performance. Mark went 267-214-276-289 for a big 1046 series. Way to go, Mr. Curtis.

Next in line was the day's 800 club. To start we have Eric Milne with 210-232-211/849, James Hawkins 224-211-212/815, J.D. Pelow 207-211/804, and new member A.J. Garcia 203-233/801. Very good gentlemen.

Rounding out the high scores were Darren Pascual 214-212/797, Bryan Osborne 257-209/783, Justin Foster 220-210/772, Felicia Mar 200/758, Marty McDonald 213/751 (great going), Eddie Sayles 204/744, Max Slevcove 202-210/741, Deanna Carrillo 211/735, Kevin Jones 734, Delano Ross 733, Michael Gaylor 217/725, Brandyn Roque 214-202 (Whoa!), and Andy Betancourt 201. What a day.

At this time I'd like to welcome our new members who joined us over the last few weeks. Myself, the parents and the veterans will strive to make this league a very enjoyable ex-

perience and to live up to the name of SED Jr. Travel.

This Saturday, we travel a bit to Canoga Park Bowl. Traditionally a high scoring house and a fitting way to wrap up the first qualifying window of the 2007 Pepsi National tournament. Our start time is 2:00 and if we finish on time, Baker matches are a good possibility.

Have an excellent week, get plenty of rest and I'll see you there.

# Girls Jr. All-Stars

by David Gordon  
**COVINA** – On Sunday past, the ladies of the Girls Jr. All-Stars visited Brunswick Covina Lanes. The group got a late start following the earlier tournament but hit the floor with some up and down scores.

The big shooters this day was Lindsay Hannasch, taking over season high series behind a set of 214-208-203-224/849. Great bowling Lindsay. Also shooting reportable games was Melissa Pena with 201-212/770. Nice set.

This coming Sunday, the girls will have their first double-session of the season. We will venture out to Canoga Park Bowl with the first session starting at 12:00. Remember ladies that the first session will end the first window of Pepsi qualifying. Be prepared.

Get in your practice and get your rest. Eight games will be on hand. I'll see you there.

# JST Titles Won by Peck, Behounek, Peck & Spiesman

LAKE FOREST—This past Sunday found JST at Forest Lanes for their 3rd tournament of the season. With a fair turnout of 60 some bowlers the competition was heavy in all divisions. Some quick notes Robert Page was given his 300 ring for rolling a 300 gm on labor day. I would like to thank Forest Lanes for hosting the tournament. A very Special Thank You to our Sponsors Roto Grip, Pins & Needles Embroidery & B&W Bowling for their continued support.

In the Novice Hdcp division, Wesley Low with No hdcp was giving the whole division a run for the money. After six games of qualifying J.B. Clark had pulled to the lead with 1033 but Wesley close behind with 1019, Russell Constable in 3<sup>rd</sup> with 937 and Cameron Peck in 4<sup>th</sup> with 933. After match play everyone changed below J.B. Cameron jumped to the 2<sup>nd</sup> position to make the cut to the top two, Cameron got hot and def J.B Clark with a 226 to 144.

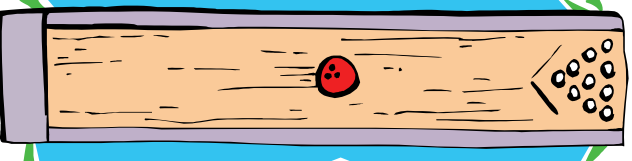

In the Intermediate division, 14 bowlers started out and the top 8 made the cut, the scores low with –239 being the cut, and –65 being the leader Jared Behounek. High Game was rolled by Andrew Arelleno 255, High series by Jared Behounek 1135. After match play Jared still held onto the #1 spot with Jeff Glusman taking the #2 and Ryan Brown the #3 spot. Ryan def Jeff with a 242 vs 171, Ryan then met Jared for the championship match but Jared held on to win with 225 to 193.

The advance division was very strong starting out with 26 bowlers in qualifying the cut was –120 and the leader was the only bowler + Natalie Jimenez with +123, Shane Peck right behind with –23, Robert Page –33, Allie Ijams –34, James Hawkins –47 on down to 16<sup>th</sup> Josh Taylor –

Shane def James 210 to 193, Shane moved on to def Bianca 204 to 158, Shane moved on to meet Robert Page defeating him with 211 to 146. Shane was now up to meet the leader Natalie who had lost her carry and Shane gained and Shane won with a 206.

The open division started out with 15 bowlers trying to qualify for the 8 spots going to match play. Krystal Alvarado led the field with +197, Will Jackson closed the field with a +41 for the cut. Krystal rolled high game and series with a 258,1397. After match play the top 3 to move on were Jeff Spiesman up to meet Jeremy Glover for the first match, Jeff rolled a very nice 256 to Jeremy's 213, Jeff was now ready to meet Krystal for the title and here again the carry went to Jeff, his 206 defeated Krystals 162.

The tournament paid out \$980.00 in scholarship thanks to the support of our sponsors. Roto Grip, Pins & Needles Embroidery. Our next tournament is November 12<sup>th</sup> at Del Rosa Lanes in San Bernardino. This is a new spot for JST so please check your maps to make it on time. The format for this tournament is being shortened to the following: 6 games of qualifying then based on the number of bowlers per division we will cut to the Roll off. Match play is dropped from this tournament due to time restraints. We are finding that with our six games of qualifying it takes longer than we had projected which now is causing time problems with centers and their Sunday leagues. Remember this is a double point tournament. Mandatory pre entry for this tournament so please call or e-mail by 6:00pm Saturday Nov. 11<sup>th</sup>. Till then keep up you practice and high scoring.
